WOOD COLLECTION

It's the fruit of the grain. The wood for each component is individually selected to be fashioned into superb beauty. There's simply nothing like it. It's been a part of our heritage for over three generations. With a clear beauty all its own, wood is the inspiration of the Cortland Collection. Expertly applied rich stains, glazes, carefully cut and matched carved moldings, corbels and rosettes deliver style and functionality to meet the most discriminating and uncompromising homeowner requirement. It not only enhances your kitchen but it adds dimension to your taste and unique style. It's a feast for the senses in five popular American woods, each with its own uniqueness, texture and feel. It's available for you to see, touch and experience in our participating Apple Valley Woodworks dealer showroom.

You will experience the convenience of a complement of creative and innovative door style designs that provide full cabinet access. And every model is built with our exclusive "Tuff-Core" Construction. Our cabinetry is uniquely engineered with all-dowelled 3/4" construction, and includes a proprietary component assembly process that guarantees years of beauty and trouble-free use. Apple Valley's quality shelving construction provides extraordinary resistance to twisting, warping and cupping. It's simply the state-of-the-industry and only available from Apple Valley. A wide array of door styles and colors gives you variety in selection as well as a full range of built-in convenience and storage options. Design the look you have in mind and create the kitchen imagery you want. Cortland is the solution.
